'AN effective instrument for the exploration of the world's thought on the things of the human spirit'—so the ENCYCLOPÆDIA OF RELIGION AND ETHICS has been characterized. An Index Volume formed part of Dr. Hastings' original plan, and his aim was that the Index should not only make the contents easy of access to those who used the Encyclopædia as a work of reference, but also suggest lines of study on certain subjects.

The wide range of subjects dealt with and the comprehensiveness of their treatment have made the preparation of an adequate index an exceedingly difficult task. Dr. Hastings laid the foundations and directed the work on it for nearly a year before his death. It has been continued and completed, according to the scheme he approved, by members of his staff, Mary C. Laburn, M.A., and D. R. Dow, M.A., who were associated with him almost from the inception of the Encyclopædia.

In spite of the utmost care, some errors doubtless will be found, and any corrections that may be sent in will be welcomed.

Under general headings, such as 'Church History,' 'Ethics,' 'Philosophy,' 'Religion' and 'Sects,' to name a few out of many, will be found grouped all related articles in their alphabetical order. This will enable those desirous of following out certain courses of study to find the material at a glance, and see their subject within the perspective of a vast yet minutely mapped field of research. Here, then, is fulfilled Dr. Hastings' aim, a library of text-books in encyclopædic form.

In addition to the exhaustive Subject Index there are indexes of Foreign Words and of Scripture Passages. There is also a complete List of Authors with their contributions.

Where there is an article on a particular subject in the Encyclopædia, the entry in the Index is in **Clarendon** type. Similarly, in the larger subjects like 'Church History,' the titles of articles under sub-divisions are also printed in **Clarendon** type. *Italic* type is used for the titles of books.

In the alphabetical arrangement, the 's' of the plural and connecting words like 'and' and 'on' are ignored.

A. W. HASTINGS.
